

# H-Series Cartridge Family

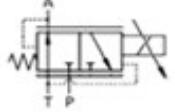

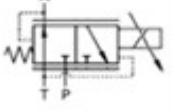

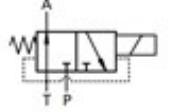

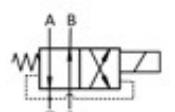

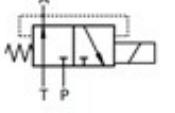

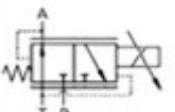

- High pressure cartridges complement a variety of hydraulic logic circuits
- Semi-automated assembly and test lines
- 100% mistake proofing
- Data acquisition on all key assembly processes and serialized test data files
- Global supply base with production facilities in China, India, UK, and USA

Model	Description	Schematic	Cavity
<b>H08-A22A H10-A22A</b> 	<ul style="list-style-type: none"><li>• 2P2W</li><li>• On/Off</li><li>• Poppet-type, NC</li><li>• 30 lpm nominal max flow rate (08)</li><li>• 60 lpm nominal max flow rate (10)</li><li>• 350 bar rated supply</li></ul>		
<b>H08-A22C H10-A22C</b> 	<ul style="list-style-type: none"><li>• 2P2W</li><li>• On/Off</li><li>• Poppet-type, NC, Rev Flow</li><li>• 30 lpm nominal max flow rate (08)</li><li>• 60 lpm nominal max flow rate (10)</li><li>• 350 bar rated supply</li></ul>		Industry Standard Size 08 and Size 10 2-Way Cavities
<b>H08-B22H</b> 	<ul style="list-style-type: none"><li>• 2P2W</li><li>• On/Off</li><li>• Poppet-type, NC, Double Blocking</li><li>• 20 lpm nominal max flow rate</li><li>• 350 bar rated supply</li></ul>		
<b>H08-A23A</b> 	<ul style="list-style-type: none"><li>• 2P3W</li><li>• On/Off</li><li>• Spool-type</li><li>• 15 lpm nominal max flow rate</li><li>• 350 bar rated supply</li></ul>		Industry Standard Size 08 3-Way Cavity
<b>H08-A23B</b> 	<ul style="list-style-type: none"><li>• 2P3W</li><li>• On/Off</li><li>• Spool-type</li><li>• 15 lpm nominal max flow rate</li><li>• 350 bar rated supply</li></ul>		
<b>H08-F34B</b> 	<ul style="list-style-type: none"><li>• 3P4W</li><li>• Proportional</li><li>• Spool-type, Diff Logics Available</li><li>• 15 lpm nominal max flow rate</li><li>• 350 bar rated supply</li></ul>		Industry Standard 4-Way Cavity

# F-Series Cartridge Family

- Market Leading Cost, Response, Hysteresis, and Control
- Flexible Design Approach Leveraging Common Core Components
- < 5 PPM Cumulative Quality Level Over Last 5 Years (150+ Million Parts)
- Fully Automated Production Test and Critical Assembly Processes
- Leverages Automotive Supply Base

Model	Description	Schematic	Application
<b>F01</b> 	<ul style="list-style-type: none"><li>• 2P3W EPRV</li><li>• Proportional</li><li>• 5.5 lpm @ 5bar</li><li>• 250 bar rated supply</li><li>• 30 bar rated tank</li></ul>		Proportional spool valve control, reduced pressure supply, electronic brake
<b>F02</b> 	<ul style="list-style-type: none"><li>• 2P3W EPRV (DA)</li><li>• Proportional</li><li>• 14 lpm @ 5 bar</li><li>• 50 bar rated supply</li><li>• 30 bar rated tank</li></ul>		Proportional spool valve control, reduced pressure supply, electronic brake, clutch engagement, PTO clutch
<b>F03</b> 	<ul style="list-style-type: none"><li>• 2P3W</li><li>• On/Off</li><li>• 23 lpm @ 5bar</li><li>• 50 bar rated CP &amp; P</li><li>• 30 bar rated tank</li></ul>		Differential lock, 2WD\4WD switching, park brake, auxiliary circuits
<b>F04</b> 	<ul style="list-style-type: none"><li>• 2P4W</li><li>• On/Off</li><li>• 20 lpm @ 5bar</li><li>• 30 bar rated (All Ports)</li><li>• 30 bar rated tank</li></ul>		Gear selection control, auxiliary circuits
<b>F06</b> 	<ul style="list-style-type: none"><li>• 2P3W</li><li>• On/Off</li><li>• 10 lpm @ 5bar</li><li>• 45 bar rated CP &amp; P</li><li>• 30 bar rated tank</li></ul>		Differential lock, 2WD\4WD switching, park brake, auxiliary circuits
<b>F08</b> 	<ul style="list-style-type: none"><li>• 2P3W EPRV</li><li>• Proportional</li><li>• 5.5 lpm @ 5bar</li><li>• 50 bar rated supply</li><li>• 30 bar rated tank</li></ul>		Proportional spool valve control, reduced pressure supply, electronic brake
